

P & E Requirements from CIRIS

PEG

NIPE/SAG Requirements from CIRIS

This year: FYDP (Converted, if necessary, to sensor/
platform terms)

Collection costs by type of sensor and, in
several instances, by platform

Collection costs by sensor/platform by target
(aggregated target)

[Support costs, etc., must be fully allocated.]

Future years:

FYDP, as above

Collection costs by sensor/platform and by
target, as above.

Processing costs on same basis as collection costs.

Production costs by ? ?

[Support costs, etc., must be fully allocated,
as above]

SECRET

Approved For Release 2004/06/15 : CIA-RDP86M00612R000200020080-3

J.J.

Resource inventory (companion system to CIRIS?):

By name, geographic location, sensor/platform type,
cost, manpower, target subjects, etc.

Also, does it radiate? is it visible?
what are the leasing arrangements?
the rent? other terms?

All, e.g., ELINT resources should be included.

[See 10 Jan. 1972 memo, NIPE Systems Capabilities
Inventory]
